

Ideas for Safer Internet Day 9th February

English

- Make a persuasive poster that teaches other children how to stay safe online.
- Could you write a story that teaches young children about the potential dangers of the Internet?
- Write a set of instructions to teach people how to use a particular type of technology safely.

Computing

- Make a list of passwords. Can you decide which ones are strong passwords and which ones are weak?
- Make two social media profiles for fictional characters. Can you make one which is safe and another that is unsafe?
- Use publishing software to design some rewards (e.g. printable bookmarks, badges or certificates) to that can be given to children who stay safe online?
- Create a video news report to share what children in your school have been learning about as part of Safer Internet Day.
- Review a web site that you use. How does it encourage users to stay safe? Are there any potential dangers?
- Design a 'Safer Internet Day' greeting card that could be sold in the shops.
- Use an avatar creator (or graphics software) to design an avatar that you can use to represent yourself online.
- Create a set of 140 character messages that could be posted on a school's Twitter account to encourage families to stay safe online.

Design Technology

- Could you design a board or game that teaches children how to stay safe online? Use [our template here](#).

Art

- Design some posters that share important eSafety rules.
- Design a 'mascot' that could be used to promote Safer Internet Day around the world.

Music

- Could you make a song based on an internet safety theme? Here are some examples:

History

- Find out about the history of the Internet. How has it changed during the years that you have been alive?

PSHE

- Imagine that your friend is being bullied online? How could you try to you help them?
