For general reference only. Please do not use this information to manage your child's medical dietary needs.

Special Diets Registration

If your child has a food allergy, food intolerance, coeliac disease or another medically prescribed dietary requirement, you **must register** with Edwards & Ward **before a special meal can be provided**.

Register here

Please register even if you have already informed the school or a previous caterer. Our Special Diets Team will assess your child's needs, arrange a suitable menu where required and ensure the necessary information and kitchen controls are in place before meals are served.
